

Approximation Theory and Special Functions

<https://atsf.com.tr>

Editor-in-Chief:

- Oktay Duman (TOBB ETÜ, Türkiye)

Editorial Board:

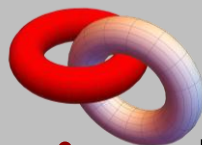

- George A. Anastassiou (University of Memphis, USA)
- Martin Bohner (Missouri University of Science and Technology, USA)
- Francesco Dell'Accio (University of Calabria, Italy)
- Esra Erkuş-Duman (Gazi University, Türkiye)
- Alexander Goncharov (Bilkent University, Türkiye)
- Weimin Han (University of Iowa, USA)
- Kai Hormann (Università della Svizzera Italiana, Switzerland)
- Gradimir V. Milovanović (Serbian Academy of Sciences, Serbia)
- Cihan Orhan (TOBB ETÜ, Türkiye)
- Ioan Raşa (Technical University of Cluj-Napoca, Romania)
- Mircea Sofonea (University of Perpignan, France)
- Shengfeng Zhu (East China Normal University, China)

Technical Editors:

- İsmail Aslan (Hacettepe University, Türkiye)
- Nejla Özmen (Düzce University, Türkiye)

Language Editors:

- Türkan Yeliz Gökçer Ellidokuz (Bahçeşehir University, Türkiye)
- Düriye Korkmaz Düzgün (Ankara Hacı Bayram Veli University, Türkiye)
- Ceylan Turan Yalçın (Çankaya University, Türkiye)

Approximation Theory and Special Functions

Volume 2, Issue 1

(Published: April 08, 2026)

Survey Articles:

- Weimin Han
*Variational-Hemivariational Inequalities: A Brief Survey on
Mathematical Theory and Numerical Analysis* 1-27

Research Articles:

- George A. Anastassiou
*Multivariate Generalized Logistic Neural Networks on Infinite Domain as
Positive Linear Operators and a Taste of Measure Theory*28-54
- Mohammed Al-Zailah, Fahd Masood and Hamdy El-Metwally
*Oscillatory Behavior and Qualitative Properties of Second-Order Nonlinear
Neutral Differential Equations of Noncanonical Type*.....55-71
- Xindi Hua, Jiaming Wenga and Shengfeng Zhu
*Adversarial Neural Network Methods for Topology Optimization of
Eigenvalue Problems*72-94
