

Approximation Theory and Special Functions

<https://atsf.com.tr>

Editor-in-Chief:

- Oktay Duman (TOBB ETÜ, Türkiye)

Editorial Board:

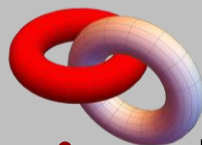

- George A. Anastassiou (University of Memphis, USA)
- Martin Bohner (Missouri University of Science and Technology, USA)
- Francesco Dell'Accio (University of Calabria, Italy)
- Esra Erkuş-Duman (Gazi University, Türkiye)
- Alexander Goncharov (Bilkent University, Türkiye)
- Weimin Han (University of Iowa, USA)
- Kai Hormann (Università della Svizzera Italiana, Switzerland)
- Gradimir V. Milovanović (Serbian Academy of Sciences, Serbia)
- Cihan Orhan (TOBB ETÜ, Türkiye)
- Ioan Raşa (Technical University of Cluj-Napoca, Romania)
- Mircea Sofonea (University of Perpignan, France)
- Shengfeng Zhu (East China Normal University, China)

Technical Editors:

- İsmail Aslan (Hacettepe University, Türkiye)
- Nejla Özmen (Düzce University, Türkiye)

Language Editors:

- Türkan Yeliz Gökçer Ellidokuz (Bahçeşehir University, Türkiye)
- Düriye Korkmaz Düzgün (Ankara Hacı Bayram Veli University, Türkiye)
- Ceylan Turan Yalçın (Çankaya University, Türkiye)

Approximation Theory and Special Functions

<https://atsf.com.tr>

Volume 2, Issue 2

(Published: October 06, 2026)

Survey Articles:

- Guy Foghem
Banach-Saks Theorem for L^1 Revisited 1-13

Research Articles:

- George A. Anastassiou
*Infinitely Many Specific Multicomposite Deterministic and Fuzzy
Trigonometric and Hyperbolic Neural Network Approximations* 14-42
- Yahya Çin and Nejla Özmen
*Bilateral Generating Relations Involving Generalized k -Cesàro Polynomials
and k -Lauricella Functions* 43-53
- Hardikkumar B. Parmar and Prashantkumar G. Patel
*Investigating the Quantitative Behavior of Kantorovich Fractional
Operators in q -Numbers* 54-71
